PROJECTS

YojanaSahay | Government welfare scheme finder — yojanasahay.vercel.app

- React and Firebase app that helps Indian citizens find the Central and State welfare schemes they qualify for, covering 1,200+ schemes, with a Groq-powered assistant.
- Bilingual; installable as a PWA and an Android app; a Telegram bot (@YojanaSahayBot) runs the same checker. Open source (MIT) with open scheme data.
- 2,000+ commits; designed, built and maintained solo.

Stack: React, Vite, Firebase, Groq API, Telegram Bot API, GitHub Actions, Vercel

StudyLens AI | AI homework helper — studylens-ai-gamma.vercel.app

- Syllabus-aware homework helper for Class KG-12 students across SEBA, AHSEC, CBSE and ICSE boards, in four languages.
- Students type or photograph a question; answers come from Groq and Gemini for the right board and class.

Stack: JavaScript, Groq and Gemini APIs, Firebase, Vercel

Personal Portfolio and Engineering Platform — sahnawaz-portfolio.vercel.app

- 50,000+ lines of hand-written HTML, CSS and JavaScript across 1,000+ commits, with no frameworks or templates.
- AI assistant, job fit checker, live Core Web Vitals, security header checks, GitHub activity, Firebase sign-in and serverless APIs on Vercel.
